camlift™

The End of Lifting Manhole Covers

Patent Pending

INTRODUCING CAMLIFT!

Neenah Foundry has always been known for our consistent quality, functional performance and design aesthetics. We now bring you the next generation in manhole covers, the Camlift. This means no more dead lifting covers that are too heavy and helps reduce time lost to job injuries. Utilizing a cam that rotates and lifts the cover, the Camlift can be easily opened with a simple turn of a wrench.

WHAT DOES THIS MEAN TO THE MUNICIPAL WORKER?

- No dead lifting
- Easy open and close feature
- Helps reduce job injuries
- No need for a pick-axe
- Cable/wires can enter unit in any direction
- Close proximity usage
- Readily used in elevated manhole applications
- One man operable
- Heavy duty for heavy traffic
- Fully compliant: AASHTO A48, M105, M306
- Exceeds 40,000 pound proof load
- Superior stability and security
- Adjusting rings available for repaving
- Controlled operation
- Class 35B traffic rated
